File this claim with: NEBRASKA DEPARTMENT OF PROPERTY ASSESSMENT & TAXATION, 1033 "O" Street, Suite 600, Lincoln, NE 68508
and one copy with the Assessor

INSTRUCTIONS

WHO MUST FILE. All taxpayers who have signed an agreement under the Nebraska Advantage Act, in anticipation of qualifying for the exemption from certain personal property taxes, must file Form 5725X, Claim for Nebraska Personal Property Exemption, and any applicable schedules.

WHEN AND WHERE TO FILE. This claim must be filed with the Property Tax Administrator and a copy to the county assessor on or before May 1 of the year immediately following the signing of the agreement, and each year thereafter through the expiration of the exemptions allowed under the act. **Failure to file properly will result in a waiver of the exemption for that year.** If the agreement is for a project or projects located in more than one county, a separate claim must be filed for each county.

SPECIFIC INSTRUCTIONS

A. The following classes of personal property as defined in Neb. Rev. Stat. §77-5725(7)(b), must be listed on this claim.

1. Turbine-powered aircraft.
2. Mainframe business computers and peripheral components. Mainframe computers must be located in a separately supported environmentally controlled area to qualify for exemption. Refer to Department of Property Assessment and Taxation Regulations, Title 350, Chapter 43.

For an explanation of peripherals which qualify for property tax exemption:

Refer to Department of Property Assessment and Taxation Regulations, Title 350, Chapter 43.

Nebraska Schedule II requires that each peripheral component claimed as exempt be designated as category (1) additional memory unit, (2) tape drive, (3) disk drive, (4) power supplies, (5) cooling unit, and (6) communication controllers.

Nebraska Schedule II also requires a notation as to whether the item is located in an Environmentally Controlled Area as described in Department of Property Assessment and Taxation Regulations, Title 350, Chapter 43.

3. Personal property involved directly in the manufacture or processing of agricultural products.
4. Personal property used to store or move products in a distribution facility.

B. The property eligible for this exemption must be acquired after the date the application was filed.

- C. The claim must contain only that personal property qualifying for exemption under the act, and must be a cumulative listing of all such property acquired since the appropriate date specified in paragraph B, excluding property with a zero net book value. Items acquired before the appropriate date **DO NOT QUALIFY** for exemption.
- D. For purposes of determining net book value, date acquired shall be the date the owner acquired the item. This is true for purchases as well as leased items.
- E. For leased items, the "Date Acquired" box on the schedule(s) shall contain the date the lessor (owner) acquired the items. For purposes of determining eligibility for exemption, the date the lessee took possession of the item shall be included in the "Make/Description" box on the schedule(s).
- F. Nebraska Adjusted Basis shall be the total purchase price of each item including, but not limited to, freight, installation, taxes, and fees. Enter whole dollars only.
- G. Recovery period is the period over which the value of property will be depreciated for Nebraska property tax purposes. Table 2 of the Nebraska Personal Property Return includes recovery periods for some assets. If you have property not contained in Table 2, use the federal MACRS recovery period.
- H. Depreciation factor is the percentage found in Table 1 of the Nebraska Personal Property Return for the appropriate recovery period and year acquired.
- I. Net book value is the Nebraska Adjusted Basis of the tangible personal property multiplied by the appropriate depreciation factor for the recovery period and year acquired.
- J. Items acquired after the appropriate date specified in paragraph B, but subsequently disposed of, must continue to appear on the schedule for one year after disposal. Such items will be listed in the same manner as all other property except the word "DELETE" shall be entered in the column designated Net Book Value.
- K. Turbine-powered aircraft are to be listed on Form 5725X, Schedule I. Mainframe business computers and peripheral computer components must be listed on Form 5725X, Schedule II. Form 5725X, Schedule III must be used for other qualifying business equipment. Separate Schedules III should be completed for Agricultural Production Equipment and Distribution Facility Equipment.
